

At Contur, we've worked very hard to achieve one basic objective: to build a better looking and better-functioning all-metal modular cabinet system at an affordable price. We've teamed our engineers together with our stylist to come up with a timeless design loaded with advanced engineering features never before seen on a metal storage cabinet; all proudly backed by "The Contur Promise". We invite you to explore our exciting new product line as we are convinced that you will share the same enthusiasm for our cabinets as we do.

Colors available:

INOX brushed stainless-steel shown with optional stainless-steel countertops & stainless-steel legs

ALPINE WHITE shown with optional maple countertops & black powder coated legs

INOX brushed stainless-steel shown with optional stainless-steel countertops & stainless-steel legs

VESPA YELLOW shown with optional stainless-steel countertops & black powder coated legs

Anatomy of a contur cabinet

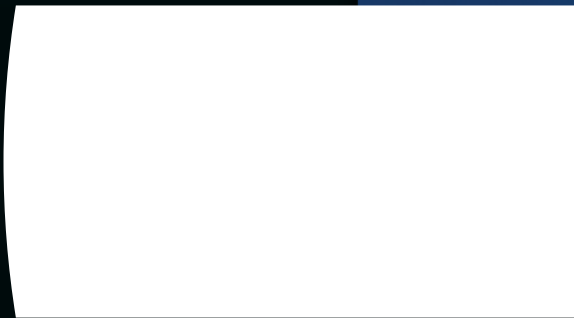

(HI-KAB shown in Santorini Blue)

- 1 Concealed quick-release European Cup hinges provide 6-way adjustment for perfect door alignment and near-seamless gaps between modules
- 2 Contoured front door panel utilizes our patent-pending Replaceable Front Panel System (RFPS) and allows interchangeability of front panels with various colors & textures
- 3 UV-rated electrostatic powder paint
- 4 Expanded Polypropylene (EPP) foam core provides structural contoured door shape. Reduces chance of door dings
- 5 EZ-open adjustable spring assisted door stay for finger-tip operation
- 6 Adjustable 50-lb rated load capacity shelf can be raised or lowered at 1/2" increments
- 7 Stainless-steel machine screw and rivet nut hardware used for door assembly
- 8 Twin alignment holes allow for easy assembly of two or more modules
- 9 Concealed 56mm pre-punched openings are provided on underside of cabinet for fitment of optional LED/Halogen task lighting
- 10 Double-walled floor allows for easy loading/unloading of storable items as well as wire concealment for optional task lighting
- 11 Slotted cabinet back allows for easy wall-hanging when lining up with wall studs
- 12 All-welded enclosed square tube construction provides added strength to cabinet housing and eliminates torsional flexing when mounting on uneven surfaces
- 13 Unique tamper-resistant side-entry cam lock with specially-designed Contur key
- 14 Sturdy flush-mounted molded ABS finger-pull with Contur logo (Available in six stunning colors)
- 15 20-gauge precision laser-cut door back panel provides structural rigidity with reduced torsional flex
